The case will be heard in San Francisco today.

## IMPROVEMENTS IN OGDEN TO GO ON

Julius Kruttschnitt Says There Will Be No Delay in the Work, as the Harriman Roads Are Badly in Need of Better Terminal Facilities at This Point.

Vice President Julius Kruttschnitt, director of maintenance and operation of the Harriman lines, arrived from Chicago in the Southern Pacific private car "Guadalupe" on the fast mail train this afternoon, and left for Salt Lake on the connecting train a few minutes later to confer with Harriman officials who have assembled there to attend a meeting of the Interstate Commerce Commission investigating freight and passenger rates in the intermountain region.

Mr. Kruttschnitt was accompanied by his private secretary and several officials of the Harriman lines. When approached by a reporter, he said:

"I have nothing to give out at this time regarding changes likely to occur in the near future. I came west to confer briefly with officials of the Harriman system and to attend a meeting of the Interstate Commerce Commission at Salt Lake. So far as I know, there will be no radical or important changes made owing to Mr. Harriman's death. Naturally the demise of a man of Mr. Harriman's importance in the financial and railroad world produces changes of a more or less important character, but nothing of a radical nature is likely to occur in the west at least."

## ASSOCIATION ELECTS ITS OFFICERS

MEDICAL MEN BRING CONVENTION TO EARLY CLOSE.

Accident in the Canyon Cuts Short the Program—Resolutions of Regret Passed.

**OFFICERS.**

Joseph S. Richards, Salt Lake, president.  
A. S. Condon, Ogden; Walter T. Hesler, Lehi; E. D. Hammond, Salt Lake, vice presidents.  
W. Brown Ewing, Salt Lake, secretary.  
J. N. Harrison, Salt Lake, treasurer.

In the absence of President E. C. Rich, at 12:30 today, Vice President L. W. Snow of Salt Lake called the convention of the state medical association to order. He stated that President Rich was unable to attend the convention because of an automobile accident of the night before, in which he and Drs. Condon, Stauffer and MacCarty had been quite seriously injured. There were but a few of the delegates present, most of them anticipating that there would be no meeting, on account of the accident.

Dr. Jones of Salt Lake moved that the business of the convention be brought to an immediate close and that nothing further be done except that which was absolutely necessary in order to properly conduct the affairs of the association. This was agreed to by the members and by 1:15 o'clock the business was finished and the convention adjourned to meet again next year in Salt Lake, the time of the convention to be determined by the executive committee.

After hearing the report of the association regarding the work of the convention during the year the convention proceeded to elect officers for the ensuing year as follows:

Dr. Joseph S. Richards, Salt Lake, president.  
Dr. A. S. Condon, Ogden, first vice president.  
Dr. Walter T. Hesler, Lehi, second vice president.  
Dr. E. D. Hammond, Salt Lake, third vice president.  
Dr. W. Brown Ewing, Salt Lake, secretary.  
Dr. J. N. Harrison, Salt Lake, treasurer.

Dr. A. C. Bailey was selected to fill the position of counselor for three years, successor to Dr. Philo E. Jones. Dr. Bailey was also selected as a delegate to the American Medical Association convention next year. Dr. Joyce of Ogden was selected as an alternate.

At the conclusion of the election of officers the house of delegates presented the following resolutions, which were unanimously adopted and spread upon the minutes of the convention:

"Whereas, The members of the Ogden Medical Society, having so roy-

regularly nourished by proper food will have incentive and power for successful work.

Grape-Nuts is a true brain and nerve food. Made of whole wheat and barley, it contains the elements of vital energy—quickly absorbed by the system—which nourish and rebuild the gray matter of the brain and nerve centres.

"There's a Reason," Read "The Road to Wellville," in pkgs.

"President Harriman left all matters in such admirable condition that the work could go on over the entire system for an interminable time without friction and it is pretty safe to assume that no changes of a radical nature will occur for a long time to come."

"Traffic over the western roads is very heavy at this time and, as director of maintenance and operations, I am fully satisfied with the manner in which business is being handled."

"I shall return east as soon as the matters at issue have been settled at Salt Lake."

"So far as improvements at Ogden are concerned they are already authorized and are at present in the hands of General Manager Bancroft and will be pushed forward as rapidly as possible. They are needed—and badly needed—and there will be no unnecessary delay in shoving the work ahead as fast as possible, from this time on."

"The Standard may say that the board of directors have approved and authorized the new work at Ogden and this will be carried out according to the plans drawn and approved by Mr. Harriman during his life time."

ally entertained the State Medical Association, therefore, be it

Resolved, That a vote of thanks be extended to the Ogden Medical Society and to the Ogden City officials for courtesies extended, and further, be it

Resolved, That we sincerely and deeply deplore the unfortunate and serious accident that befell our conferees after last evening's entertainment—namely, President Ezra C. Rich, Drs. A. S. Condon and R. S. Joyce of Ogden; Dr. W. C. MacCarty of Rochester, Minn., and Dr. Fred Stauffer of Salt Lake City. And be it further

Resolved, That out of respect to the injured the meeting of this association be now adjourned."

## UNION DEPOT OFFICIALS ARE ALWAYS COURTEOUS

Railroad officials at the Union depot are just a trifle annoyed at what they term an unjust criticism of employees in the night service by a morning paper. The train service is not in the hands of depot employees, and they are required to "make up" trains on the bulletin board as they receive reports from time to time from the train dispatchers. This is done promptly as the later reports are received.

The night force consists of Depot Master Sam Fowler, who has occupied his position for more than a quarter century, and who is well and favorably known to every passenger, and within a radius of several blocks of the passenger depot. Sam couldn't be cranky or surly if he wanted to. He isn't built along those lines and his great, good natured voice penetrates every room and corner of the waiting rooms half a dozen times during the night. Associated with him in the long vigil are Arthur Matthews and Phil Myers and both of these young men enjoy reputations for urbanity and politeness in their respective positions.

It is thought the Examiner's information was derived from tired and worn-out passengers who were "sore" and angry at being delayed on the road.

The depot force at Ogden, both day and night, will compare favorably with any point on the line between Omaha and San Francisco.

## IN POLICE COURT

In the police court this morning James P. Hays was sentenced to serve ten days in the city jail for mendacity; William Wertz and Frank Cameron were each given five days for drunkenness.

John Patterson, a colored man, pleaded guilty to stealing a suit case containing about \$25 worth of clothing from A. C. Williams. The court sentenced him to 60 days in jail or a fine of \$60.

Walter Kane and Harry Brown, two boys eighteen and nineteen years of age, pleaded guilty to having stolen wearing apparel belonging to one S. C. Porter of the probable value of \$15. The arresting officer stated to the court that he did not think the younger boy, Kane, was guilty of wrongdoing, but was simply found in bad company. Under the statement of the officer, the court ordered the boys taken back to jail to be held there pending further investigation. Young Kane has a brother in Salt Lake working for the Tribune company and that he desired to go where he is. The officers will make an effort to find the brother.

## COOK IS FLOODED WITH MESSAGES

New York, Sept. 22.—"Home" will mean rest for Dr. Frederick A. Cook for weeks to come. The man who says he was first at the North Pole arose this afternoon after ten hours sleep to begin a day of hard work. Piled in the sitting room of his suite at the Waldorf Astoria, were nearly 1,000 letters and telegrams from all parts of the world, to many of which he must give immediate answers.

So today he shut himself up with the young English secretary whom Minister Egan sent with him from Copenhagen and set to work. Dr. Cook will stay in his room practically all the time until his next public appearance which will be at the banquet of the Arctic club tomorrow night.

Many of the letters awaiting are from theatrical managers, commercial bodies and civic organizations which are anxious to have the explorer lecture or attend public functions. Others are from publishers bidding for his literary output.

Thus far, all that Dr. Cook has made known regarding his plans for the fu-

ture is that he will make a trip through the western states during which he will lecture and probably speak at a number of public functions. While deluged with invitations to events of this kind near home, he has been unable to map out anything like a definite schedule. The explorer has added nothing more definite to the mark he made yesterday that he expected to meet Commander Peary soon, face to face. It is supposed he meant nothing more than that Mr. Peary would shortly be in New York and conditions would be right for a personal discussion and settlement of their rival claims.

## GOVERNORS ASKED TO CONSIDER TAXATION

Louisville, Ky., Sept. 22.—When the delegates to the International Tax association met today there was much discussion of the suggestion made by Professor Allen R. Foote, of Columbus, Ohio, and Governor Willson of Kentucky, that a joint conference of governors to consider uniform tax legislation be called in the near future.

Joseph A. Debor, president of the National Life Insurance company of Montpelier, Vt., read a paper on "Taxation of level premium life insurance." He advocated a uniform state tax on gross premiums collected in each state and in lieu of all other taxes; that taxation of life insurance companies should be reserved to the several states so that county and municipal taxation and their license fees be abolished and that the use of interstate comity through the advice of state commissioners should be substituted for reprisals through reciprocal and retaliatory legislation.

Other speakers were Frederick L. Hoffman, of the Prudential Life Insurance company of Newark, N. J., W. H. Gardner of New York, and James W. Noel of Indiana.

## SHIP WERE DRIVEN FAR INLAND BY THE STORM

Jackson, Miss., Sept. 22.—Further news of the damage done by the hurricane in Mississippi reached here today. There was comparatively small timber destruction, and the crop damage, especially to cotton, was much smaller than indicated by early reports. The Mississippi Coast Traction company's road of eighteen miles is almost a complete wreck. The line runs between Long Beach and Biloxi. Save only the Ship Island pier at Gulfport, not a bathhouse nor pier has been left standing from Pass Christian to Scranton. The loss on these structures is from \$500,000 to \$750,000.

The damage to small shipping is almost beyond estimate. Hundreds of fishing boats, schooners, catboats and launches were crushed like egg shells on the beach.

Judge J. H. Nevill, of Gulf Port, woke up yesterday morning to find a large two-masted schooner heavily laden with oysters, reposing in his front yard.

In several instances schooners crashed through residences, one home at Gulf Port being cut in two in this manner.

The Illinois Central main line between Jackson and New Orleans is still tied up. The damage in Jackson was \$50,000.

## OAKLAND MAN SHOOT HIS WIFE AND KILLS HIMSELF
